**Interest and Achievements**

I am a professional artist, living in Düsseldorf, working in Düsseldorf and Neuss. In my time here and through my working practice I can say that I familiarized myself with the art scene in North Rhine-Westphalia. As an Israeli, it is an especially beautiful and sensitive challenge to be active as an artist in the Rhineland.

I believe that art is a space of experience, expression & thoughts:

A place where we can discover new things about ourselves, and our surrounding.

This is a space of communications and creating dialogue between people, these workshops focus on these subjects and more.
